## PAINTING WITH CONTEMPORARY TECHNIQUES - PROGRAM

The term “*contemporary art*” refers to art created in the present, but generally includes all art movements from the beginning of the twentieth century to the present day. The course is designed to introduce the student to use the new language of art through the study of materials and contemporary painting techniques. Through the copy of modern works, students will learn to use the basic techniques used by the artistic avant-garde of the twentieth century to the present day. When they have learned to use these techniques without difficulty, they will be helped to develop their own language and their own style.

The course is structured as follows:

- Study and use of supporting materials: papers, canvas, wood, metals, plastic materials
- Traditional colours, industrial colours
- Use of special instruments for painting like palette knives, rolls
- Mixed techniques: sponging, preparations with naturals and industrial materials, use of various kinds of plaster, powders, glues)
- Development of a personal language

Variations in the program will be made for students with varying degrees of experience.

This course is available in the following types and prices:

Art materials are not included in the course fees. Anyway, basic materials will be provided by the school for the first lesson and the teacher will give each student a list of materials to buy, according to artistic techniques and projects that each student intends to develop. A card supplied by the teacher at the beginning of the course will allow students to purchase art materials in a large specialized store near the school, where students can find a wide variety of high quality art materials at discounted prices.

The cost for basic art materials is normally roughly 30 Euro.

Classes are held in Italian and English. Students can start courses every week and can enroll for a minimum of one week in the "Intensive" course and for a minimum of 2 weeks for the "Basic" and "Semi-intensive" courses. The topics covered in the months following the first one will focus on further investigation of the issues proposed in the basic course. The courses can be attended by beginners as well.

At the end of the course participants will receive a Certificate of Participation (Diploma).
