SCULPTURE - PROGRAM

Sculpture is a visual art that produces three-dimensional art objects and is carried out with a high number of techniques and a wide variety of materials. Sculptors may remove (carving), model (as clay) and assemble by welding and other processes, they work with stone, metal, ceramics, wood and other materials, they mold and cast.

This course allows the student to choose between the most used techniques and media, including clay modeling, marble sculpture and plaster. According to his/her level of study and course selection, the student may choose to concentrate on a specific technique or may choose to diversify techniques and materials.

This course is available in the following ways and prices:

Art materials are not included in the course fees. Anyway, basic materials will be provided by the school for the first lesson and the teacher will give each student a list of materials to buy, according to artistic techniques and projects that each student intends to develop. A card supplied by the teacher at the beginning of the course will allow students to purchase art materials in a large specialized store near the school, where students can find a wide variety of high quality art materials at discounted prices. The cost for basic art materials is normally roughly 30 Euro.

Terracotta (Clay)

- Technology of materials
- Study of tools used for modeling
- Choice of subject and realization of preliminary drawing
- Modeling of clay, bas-relief and full-relief
